

From the desk of

Santa Claus

NORTH POLE HEADQUARTERS

www.SANTATIMES.com

Hello

Many things have happened at the North Pole over the past year. In the spring we had our yearly egg coloring contest. Mrs. Claus and Dasher tied first place in the event. Our annual Easter Egg Hunt followed the coloring contest. (We still haven't found all the eggs. The elves sure hid them well.)

The reindeer held their annual Reindeer Games this past summer. Sleigh pulling, takeoff races, precision landing, and speed flying were just some of the games. The elves held their own games as well. Santa-sack racing, fastest present wrapping, and a candy cane relay were some of their games. A jolly good time was had by all.

This fall we had our annual pumpkin festival right before Halloween. I made my world-famous pumpkin pie. Using a big pumpkin from the garden I was able to make over a dozen pies. Believe it or not, there were no leftovers! In between it was work as usual -- keeping track of the good boys and girls, making toys, studying my route maps, and keeping my sleigh in perfect working order.

I see that you have been good all year and I look forward to visiting you on Christmas Eve. In the meantime, I hope you enjoy visiting my website, www.SantaTimes.com, and doing all the fun things there.

Love,

Santa

P.S. Be sure to countdown the time to my arrival, play reindeers games and color pictures of me on Christmas Eve at SantaTimes.com
